Subject:

I would assume that Kornegay is the appropriate person to coordinate responsibility for monitoring the hearings and organizing opposition to the cigarette portion of the Fenwick Bill.

It seems curious that Stevens put the question to Mills and Panzer rather than Kornegay.

Horace will be in this office tomorrow and we ought to mention this matter to him.

Incidentally, this is the first time I've seen the Cook & Henderson memo of March 29. I assume from this that the Institute has designated them to work on this bill.
